

2. Will proposed action have a significant effect upon:
- a. commercial or recreational use of fish or wildlife resources? yes no n/a
 - b. scenic quality of the coastal environment? yes no n/a
 - c. development of future, or existing, water-dependent uses? yes no n/a
 - d. operation of the state's major ports? yes no n/a
 - e. land/water uses within small harbor area? yes no n/a
 - f. stability of shoreline? yes no n/a
 - g. surface/groundwater quality? yes no n/a
 - h. structures, site or districts of historic, archeological, and/or cultural significance to the town, state, nation? yes no n/a
3. Will the proposed action involve or result in any of the following:
- a. physical alteration of land along the shoreline, land under water, or coastal area? yes no n/a
 - b. physical alteration of two (2) acres or more of land located elsewhere in the coastal area? yes no n/a
 - c. expansion of existing public services of infrastructure in/near undeveloped or low density areas of the coastal area? yes no n/a
 - d. energy facility not subject to Article VII of the Public Service Law? yes no n/a
 - e. mining, excavation, filling, or dredging in coastal waters? yes no n/a
 - f. reduction of existing or potential public access to or along the shore? yes no n/a
 - g. sale, lease or easement, or change in ownership or use of publicly-owned lands located on the shoreline or under water? yes no n/a
 - h. development within a designated flood or erosion hazard area? yes no n/a
 - i. development of a beach, dune, barrier island, or other nature feature that provides protection against flooding or erosion? yes no n/a
 - j. replacement of eroded sand or soil? yes no n/a
 - k. construction or reconstruction of erosion protective structures? yes no n/a
 - l. diminished surface or groundwater quality? yes no n/a
 - m. removal of ground cover from the site? yes no n/a

PROJECT FUNCTIONALITY

1. If the project is to be located adjacent to shore:
- a. does the project require a waterfront site in order to function? yes no n/a
 - b. will water-related recreation be provided? yes no n/a
 - c. will public access to the foreshore or state-owned underwater lands be provided? yes no n/a
 - d. will it supplant a recreational or maritime use? yes no n/a
 - e. do essential public services and facilities presently exist at or near the site? yes no n/a
 - f. is it located in a flood prone area? yes no n/a
 - g. is it located in an area of high erosion? yes no n/a
2. If the project site is publicly owned:
- a. will the project protect, maintain, and/or increase the level and types of public access to water-related recreation resources and facilities? yes no n/a
 - b. If located in the foreshore, will access to those adjacent lands be provided? yes no n/a
 - c. will it involve the siting and construction of major energy facilities? yes no n/a
 - d. will it involve the discharge of effluents from major electric generating and industrial waters into coastal waters? yes no n/a
